

	zeitkontinuierlich	zeitdiskret
wertkontinuierlich	<p>analog</p>  <p>A continuous-time, continuous-value signal represented by a smooth, periodic sine wave. The horizontal axis is labeled t.</p>	<p>Kap.1</p>  <p>A discrete-time, continuous-value signal represented by a sequence of vertical stems with circular markers at the top. The horizontal axis is labeled T. The markers are distributed across the time axis, representing sampled values of a continuous signal.</p>
wertdiskret quantisiert	 <p>A discrete-time, discrete-value signal represented by a step function. The horizontal axis is labeled t. The signal takes on a finite number of constant values over time intervals.</p>	<p>digital</p>  <p>A discrete-time, discrete-value signal represented by a sequence of vertical stems with circular markers at the top. The horizontal axis is labeled T. The markers are distributed across the time axis, representing sampled values of a quantized signal.</p>
